

Each year the goal of the Mason Open is to engage the University community and bring together our faculty, staff, students, alumni and community members for a day of fun on the course! This event is also Mason Recreation's largest fundraising initiative that supports our Student Development Fund.

Your sponsorship allows us to provide our student-staff members high quality professional development opportunities all year-round. By providing these opportunties, we are not only supporting their career readiness, but paving a path for future success. To date, more than 15 Mason Recreation student staff have been offered Graduate Assistantships at institutions across the country.
